

Angelo Bryan

Web Developer

As a web developer with former experience in digital marketing, specifically in designing websites and SEO, I believe in constantly improving. I currently have experience in Django Rest Framework and React, but can't wait to learn more!

WORK EXPERIENCE

Full Stack Web Developer

Momentum | September 2022 - January 2023

- Used Django Rest Framework and React to build out an application
- Learned about Agile principles and implemented them in a group project
- Used JavaScript, Python, Html, and CSS to build applications

Web Design Apprentice

BasantNow | August 2022 - October 2022

- Designed a Brilliant Directories site using HTML, CSS, and site widgets
- Conducted Keyword Research that increased traffic by 10% on pages
- Used Adobe Photoshop to create thumbnails for Youtube Channel

Safety Intern

Lake Cable LLC | Summer 2021

- Managed wire samples using excel to increase organization and disposed of wire that did not pass through quality inspection
- Organized records of the processes that went on throughout the plant

Account Manager/Consultant

CMS Consulting | February-December 2020

- Led a team of 5 to design a campaign that led to the doubling of current members for our client
- Conducted research on the best social media practices in order to drive up engagement and awareness for our client
- Captured and edited photos for use on the client's website

Projects

NeoSelf / [Project Link](#)

- Full Stack app that helps users stick to their new Habits
- On the backend I was able to populate multiple models off of a single instance. On the front end, I was able to parse the data I made on the backend to make charts for the user to see.
